## ANNEXURE A4

# SERVICE LEVEL INDICATORS

-----

*DRAFT*

## **SERVICE LEVEL INDICATORS**

### **1. INTRODUCTION**

The purpose of the Service Level Indicators is to guide and document the expectations and requirements of the services to be rendered to the Tendering Institutions by the Service Provider.

This document may be used as the benchmark against which reviews and, as appropriate, modifications to the service provided by the Service Provider shall take place.

### **2. KEY PERFORMANCE INDICATORS**

Key performance indicators (KPIs) are management tools designed to monitor supplier performance and help meet the goals, objectives and service levels of the contract.

The KPIs must help point you in a direction, improve performance levels, identify breakdowns in a process and are a driver of continuous improvement for more efficient and sustainable procurement processes.

KPIs should be relevant to your institution and should be simple to use. When developing the KPIs, no more than 10 (ten) should be enough. You don't want to become overwhelmed and find yourself serving the KPIs rather than having them serve you.

Following KPIs shouldn't be about hours of gathering data. If you are establishing your first KPIs, start with just a couple so that everyone can understand them and their purpose. You can always add more KPIs later.

#### **2.1 How should you set up your KPIs?**

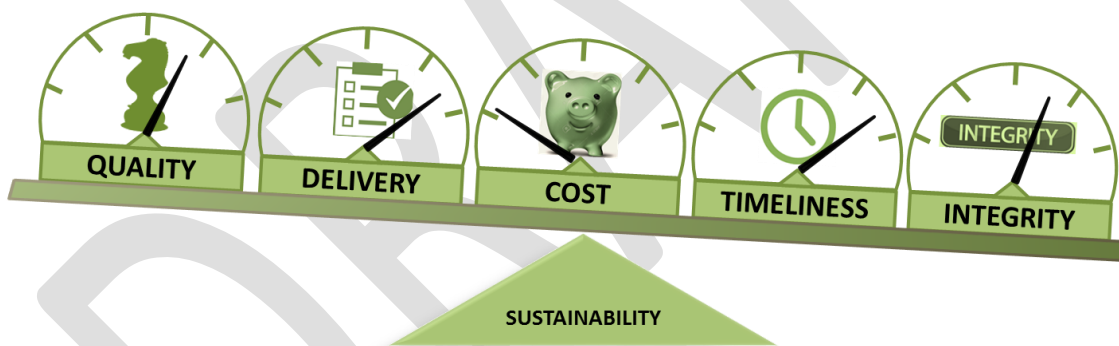

- Before starting to establish KPIs, you should figure out what your stakeholders need and what are the institution's strategies and objectives for the future. It starts with meeting the management as well as other stakeholders.
- Look for ways the supply chain unit can help meet them, and then look for metrics that reveal your progress towards achieving those goals. There is no one-size-fits-all formula for all departments and the goals as well as the KPIs are most usually custom.

- Introduce the newly established KPIs to procurement employees as well as all the stakeholders. Everyone should be well aware about the metrics, the reporting as well as the goals of them.
- The metrics should then be signed off by management in order to maintain accountability, and later on they will be reported on in future progress meetings.

## 2.2 Major groups of KPIs

The goals of KPIs can be divided into five major groups according to their purpose: receive savings (Cost), increase quality (Quality), improve delivery (Delivery), timeliness of actions (Timeliness), improved transparency (Integrity) and improved productivity (Systems Productivity).

All groups are tightly bound together and it's important to understand that these are like an octopus: if you are setting up your KPIs from only one of the groups, you don't want to harm any of the others because it might decrease supply sustainability.

## 3. RANGE OF SERVICES

The Services rendered are reflected in the Scope of Work (Annexure A1 Paragraph 15).

#### 4. MEASUREMENT CRITERIA

The following table lists a comprehensive number of Key Performance Areas and Indicators. The Tendering Institution must select the most relevant KPA and KPIs and include it in their contracts and quarterly and annual reviews of the contract. Tendering Institutions may change the descriptions, targets and frequency of measurement according to their needs.

<i>Key Service Area</i>	<i>Description of Service</i>	<i>Target</i>	<i>Frequency of Measurement</i>	<i>Weighting of Service</i>	<i>Reference</i>
