TERMS OF REFERENCE

1. INTRODUCTION AND BACKGROUND

The LGSETA is a schedule 3 public entity established in terms of Section 9(1) of the Skills Development Act (SDA), No 97 of 1998. The mandate of the LGSETA is to facilitate skills development in the local government sector. On 31 March 2020, the Minister of Higher Education, Science and Innovation appointed the Accounting Authority with effect from 01 April 2020 to 31 March 2025. It is therefore against the above background that, The Accounting Authority (Board) and CEO have a responsibility to ensure in terms of section 56 of the PFMA that,

- the entity has & maintains an effective, efficient & transparent system of risk management - PFMAS51(a)(1).
- effective and appropriate steps are taken to prevent irregular expenditure, fruitless & wasteful expenditure losses resulting from criminal conduct, and expenditure not complying with the operational policies of the entity; and
- Compliance with the provisions of the PFMA and any other legislation applicable to the institution is ensured.

In 2018/19 financial year, the Minister of Higher Education and Training established a programme for Centres of Specialization with the purpose of creating a pipeline of trades and occupational qualifications that are considered shortage and critical skills for the economy. In addition, the Centres of Specialization forms part of the strategic objective in the strategy of all SETA's through partnership with employers and private sector for the roll out of this programme. The LGSETA has responded to this strategic initiative through its Strategic Plan and Annual Performance Plan through providing infrastructure support to the Centres of Specialization in the current financial year.

2. PURPOSE

In support of the objectives of the establishment of the Centres of Specialization Programme which include addressing the demand for priority trades needed for the implementation of the government's National Development plan and its National Infrastructure Plan, the LGSETA seeks to,

2.1 Procure tools of trades and personal protective equipment-

2.1.1 Tablets with Data (data capped for a period of 3 years),

2.1.2 Toolboxes and Equipment to support learners from TVET Colleges

who are participating on the Centers of Specialization Programme,

2.1.3 Personal Protective Equipment (PPE)

3. **SCOPE OF WORK**

The scope of this project includes supply and delivery of the Information and Technology equipment with data (capped for 3 years), tools of trade and personal protective equipment. The appointed service provider/s will sign a contract for a period of 3 years at a negotiated price/flat price. The provider/s will have to submit price quotes for the 3 years. The quotation should be for the: -

- Procurement of Tablets with data (data capped for a period of 3 years) for learners studying at the Centres of Specialization.
- Procurement of Toolboxes as identified, per trade.
- Procurement of Personal Protective Equipment (PPE).

The bidder must:

- Demonstrate experience in supply and delivery of similar goods and services for the tools of trade, personal protective equipment and Information and Communication Technology.
- Submit Brochures with detailed specifications. These brochures should clearly indicate that SABS/Certification of products which have been applied for is attached. It is the bidder's responsibility to clearly demonstrate this with a catalogue or any other form of printed materials.
- Submit samples at the final stage prior to concluding the final evaluation of the products.

SPECIAL CONDITIONS OF CONTRACT

1. Price Escalation the rates shall be increased annually in accordance with the Consumer PriceIndex (CPIX).

Pricing Schedule - All items must be priced, failure to price all items will lead to the disqualification of the bidder.

2. Appointed service provider(s) will be required to take measurements of learners' sizes upon receiving a purchase order and must notify the LGSETA three days prior to delivery (this is to ensure that learners are notified to avail themselves for final fitting).
3. All textile items to be embroidered with the LGSETA logo.
4. Packaging of items will be done per learner in accordance with the list provided by the LGSETA (List of learners & sizes) when delivering PPE.
5. Delivery of Toolboxes, Machines and Tablets will be packaged and done at

an identified Centre of Specialization.

6. Assembling of Machines, Toolboxes and ICT equipment and maintenance will be done by the service provider for the duration of the contract period.

5. FUNCTIONAL REQUIREMENTS

The Bidders will be evaluated according to the evaluation criteria in the scorecard below. Bidders must indicate their ability to do the following and to substantiate as required with supporting documentation. The maximum possible score that can be achieved for functionality is 100. Bidders must achieve a minimum of 70 points in order to be considered for price and preference evaluation.
